

Our company that began its activities in the scope of heavy-duty vehicle' spare parts in 1975 evaluated its knowledge within this period of time by starting bolt production and became a brand in request both in homeland and foreign land in a short period of time. Our company that blended the quality and customer focused understanding of production with the opportunities of developing technology began to produce various axles and equipments of these axles for TIR semi-trailers at the beginning of 2003.

AKKAR Bolt&Axle exceeded market targets and took its place amongst the most dynamic companies of sector within the shortest possible time with the understanding of production made without compensating from quality together with production experience from past.

Our company that is renovating its Machine Park with each passing day speeded up it works in all field by adding in its structure the staff specialist in their field and strengthened its works by obtaining ISO 9001:2000 Quality Management System Certificate.

Our company that determined its market strategy as to be opened to Europe at the beginnings of 2006 took its first step by obtaining Brake Test Certificate in the direction of 71/320/ECC directives.

Akkar will combine production on real-time and delivery guarantee with confidence and power from you and strengthen its production with technology by keeping satisfaction of customer in the forefront.

Abdullah AK
General Manager

1975 yılında ağır vasıta yedek parça satışı alanında faaliyete başlayan firmamız; aradan geçen süre zarfında edindiği bilgi birikimini, bijon imalatına başlayarak değerlendirmiş ve kısa zamanda bu alanda hem yurt içinde hem de yurt dışında aranılan bir marka haline gelmiştir.

Üretimde kalite ve müşteri odaklı üretim anlayışını, gelişen teknolojinin imkanlarıyla harmanlayan firmamız, 2004 yılı başlarında tır dorseleri için çeşitli dingiller ve bu dingillerin ekipmanlarının imalatına başlamıştır.

Geçmişten gelen imalat tecrübesi ile birlikte kaliteden ödün vermeden gerçekleştirilen üretim anlayışıyla kısa zamanda AKKAR Bijon&Dingil, pazar hedeflerini aşmış ve sektörünün en dinamik firmaları arasında yerini almıştır.

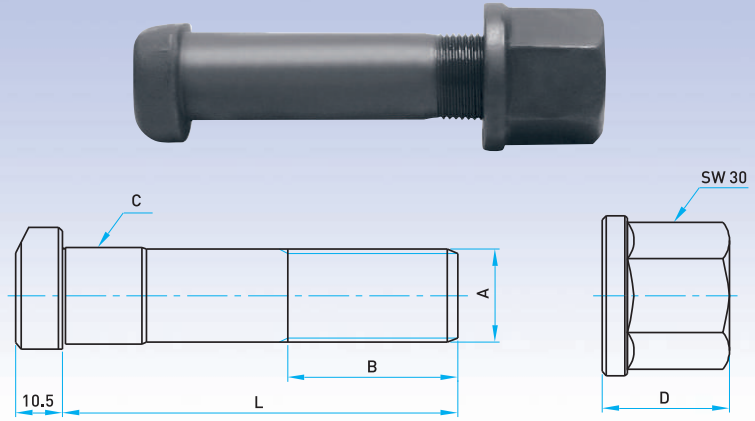

Makine parkurunu her geçen gün yenileyen firmamız, konusunda uzman kişileri bünyesine katarak her alanda çalışmalarına hız vermiş ve bu çalışmalarını da ISO 9001:2000 Kalite Yönetim Sistem belgesini alarak perçinlemiştir.

2006 yılının başlarında, pazar stratejisini Avrupa'ya açılmak olarak belirleyen firmamız bu konudaki ilk adımını, 71/130/EEC direktifleri doğrultusunda Fren Test Belgesini alarak atmıştır.

Akkar; müşteri memnuniyetini ön planda tutarak zamanında üretim ve teslim garantisini, sizlerin verdiği güven ve güçle birleştirip üretimini teknolojiyle perçinleyecektir.

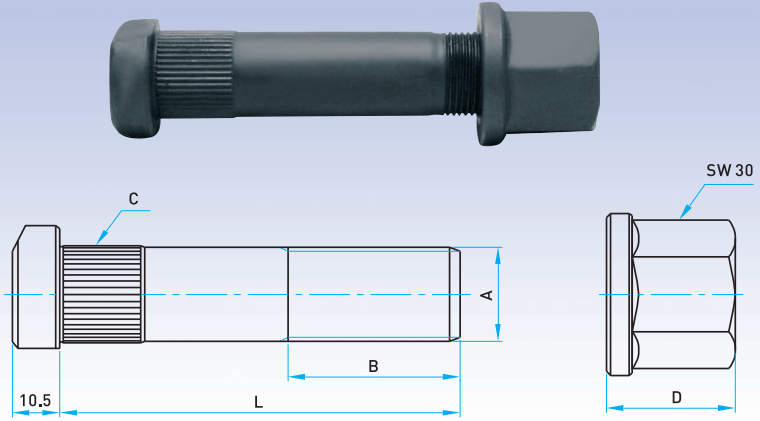

Abdullah AK
Genel Müdür
