About Us

Our company began its activities in the scope of heavy-duty vehicles' spare parts in 1975 evaluated its knowledge within this period of time by starting bolt production and became in request both in homeland and foreign land in a short period of time .

Our company that blended the quality and customer focused understanding of production with the opportunities of developing technology began the produce various axles and equipments of these axles for TIR semi-trailers at the begining of 2003... AKKAR Dingil exceeded market targets and took its place amongst the most dynamic companies of sector within the shortest time with the understanding of production made without compensating from quality together with production experience from past. Our company that is renovating its Machine Park with each passing day speeded up it Works in all field by adding in its structure the staff specialist in their field and strengthened its Works by obtaining Quality Manegement System Certificate. Our company that determined its market strategy as to be opened to Europe at the beginings of 2006 took its first step by obtaining Brake Test Certificate in the direction of 71/320/EEC directives.

Akkar began to manufacture brake caliper repair kits for busses,trucks and trailers produced by KNORR, MERITOR, HALDEX, WABCO, SAF, BPW, IVECO, Z-CAM and BREMBO

Akkar will combine production on real-time and delivery guarantee with confidince and power from you and strengthen its production with technology by keeping satisfaction of customer in the forefront.
